Oat Milk Powders

A versatile nondairy solution in a clean-label formulation

From the hippest coffee shops to more and more products on grocery store shelves, oat milk is having its moment.

Formulating Great Taste and Versatility

Bluegrass Ingredients' custom Oat Milk Powders capture the earthy richness, indulgent creaminess and subtle sweetness of oat milk. It delivers superior taste in a formulation that offers versatility through enhanced applications and improved shelf life.

Only the 3 Best Ingredients

Bluegrass Ingredients' Oat Milk Powder contains just three ingredients – water, oats and enzymes. The same ingredients in oat milk.

A Clean Label that Matches a Lifestyle

Our oat milk powder has no added colors or preservatives and is vegan, gluten-free, contains no nuts or soy, and is certified Kosher.

Applications

- ✔ Bakery items
- ✔ Desserts
- ✔ Snacks
- ✔ Coffee creamers
- ✔ Protein shakes and smoothies
- ✔ Yogurt

A Nondairy Solution From True Dairy Experts

As industry demands for non-dairy and clean-label alternatives accelerate, Bluegrass Ingredients' origins as a dairy powder manufacturer has become a defining competitive advantage.

We are certified experts in what makes dairy products taste great and can draw on that expertise to develop better-tasting vegan alternatives.

The Agile Kitchen™

AT BLUEGRASS

Your Partner in Better Flavors

From delivering iconic ingredient solutions to innovative new combinations,

Bluegrass partners with customers to develop and deliver dairy flavor solutions that satisfy market demands.

Bluegrass Ingredients operates at the cutting edge of taste and flavor trends. The **Bluegrass Agile Ingredient Innovation®** Model is custom built to help brands and flavor houses achieve the rapid food innovation they need to stay ahead of today's dynamic consumer taste and dietary demands.

Let's Collaborate

Bluegrass Ingredients offers a complete suite of clean-label and nondairy formulations and market-driven flavor solutions. For a sample or to learn more about our product development process, please contact us.
