

Plant-based Powders

Ingredients matter more than ever.

Consumers are seeking clean-label products with a focus on natural, organic, non-GMO ingredients and no additives or preservatives that deliver familiar flavors matching their preferences and worldview.

Essential Ingredients in Plant-based Products

Bluegrass Ingredients has developed a robust library of plant-based powders, also available with vegan and organic certifications.

These off-the-shelf formulations are the foundation of our Agile Ingredient Innovation approach to prototype and produce plant-based powders and applications that meet exact specifications and consumer expectations, and deliver on customer business needs.

Applications

- ✔ Seasonings and snacks
- ✔ Sauces and salsas
- ✔ Beverages
- ✔ Dressings and dips
- ✔ Baked goods
- ✔ Main and side dishes

A More Flexible Formulation

Bluegrass Ingredients' plant-based powders deliver the clean-label flavors and texture consumers expect with less resources to ship and store.

Spotlight on Citrus Fruit Powders

In addition to nondairy plant-based dairy alternatives, Bluegrass Ingredients offers a range of citrus fruit powders that can be incorporated into plant-based applications, flavors, and seasoning solutions.

Dairy Experts Providing Nondairy Solutions

Plant-based products aren't just for strict vegetarians and vegans anymore. Consumers in every market segment are paying more attention to the impact their dietary choices have on the planet. Bluegrass Ingredients' culinary expertise and dairy legacy assures our plant-based dairy alternatives are indistinguishable from their traditional dairy counterparts.
